

Project Description

Title: Swiss Hiking tour guide booking

Description:

On the website you can book hiking tour guides in the Swiss alps and manage your tours on the website. Swiss hiking tour guides can upload their tour for tourists to see and book.

The website will be a platform for tourists to book hiking tours in the Swiss alps added by Swiss hiking tour guides. Various details of the tours will be found, tours can be edited by the guides if needed and they can find all tourists who have signed up for the tour on a dashboard. Admins will find a nice overview of all tours, tour guides and tourists who have created accounts on the platform

User Stories

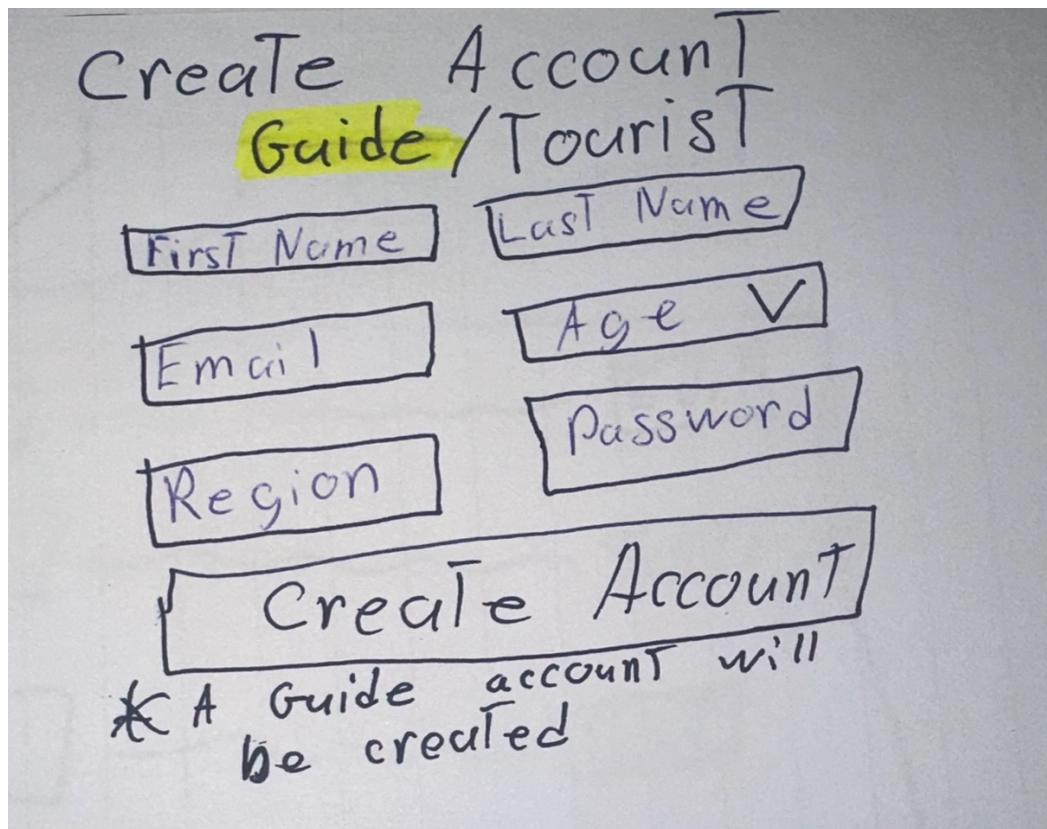

Story - Tour Guide Account Creation

As a tour guide,

I'm able to create a tour guide account

so that I can add tours for tourists to sign up for
